

# Aegis MSE-LM

HEAVY-DUTY MORTISE LOCK WITH DOUBLE-SIDED  
STATUS INDICATORS

# The Strongest Dual Indicator Mortise Lock in the Market

## Features & Benefits

### Designed to Be Intuitive, Engineered to Be Safe.

- The Aegis MSE-LM a heavy-duty mortise lock that features large, double-sided status indicators on both sides of the lock for immediate visibility of lock status; it easily integrates into school lockdown strategies and is the most cost effective way to upgrade security in schools, hospitals, and other public buildings.
- Indicator labels are available in OCCUPIED/VACANT or LOCKED/UNLOCKED, helping reduce uncertainty and improve situational awareness in sensitive or high-traffic areas.
- Rotating the inside cylinder/thumbturn and outside cylinder changes both inside and outside status indicators accordingly.
- The lock always allows for free egress, even while the outside lever remains locked, ensuring occupant safety and ability to exit without compromising external security.
- Finishes available in Flat Black (622) and Satin Stainless Steel (630). Others available upon request.

### Fast and Flexible Retrofittable Installation

- Engineered to fit into most standard mortise door preps, including those of other major brands when paired with TownSteel's Rejuvenator mortises, making retrofits fast, simple, and cost-effective.
- The large escutcheon covers existing door imperfections, eliminating the need for cosmetic repairs or additional prep work.
- Allows the use of an existing key system - original cylinders can stay in place.
- Available in multiple functions including TownSteel exclusive functions: Faculty Privacy and Classroom with thumbturn.
- Offered in multiple configurations to fit your specific project needs: Emergency Release/Turn, Cylinder/Turn, Cylinder/Blank, Cylinder/Cylinder, Cylinder and Emergency Release/Turn.

### Built for Long-Term Performance in Demanding Environments

- Heavy-duty cast, machined trim, and stainless steel construction stands up to impact, wear, and harsh conditions without compromising functionality or security, ideal for high-traffic environments including hallways, restrooms, classrooms, administrative offices, and more.

### Code-Compliant & Certified

- ANSI/BHMA A156.13 Grade 1 Certified, UL 10(C) 3-Hour Fire Rated, and ADA Compliant.
