Ligature-Resistant Security with Retrofit Coverage

Features & Benefits

Purpose-Built Design

- The MRXA-R is a Grade 1 mortise lock featuring a 5-point ligature-resistant stainless steel arch trim, designed specifically for behavioral, mental health, and psychiatric care environments.
- Includes tamper-resistant mounting screws and stainless steel construction for added durability and safety.
- Can be mounted on both wood and metal doors, offering installation flexibility across facility types.
- Designed to minimize risk in high-security settings while meeting the operational needs of healthcare professionals.
- ADA-compliant turn piece ensures accessible operation while maintaining ligature resistance.

Retrofit-Ready with Coverage Plate

- The MRXA-R includes a stainless steel underplate to cover pre-existing holes from prior hardware installations.
- Offers a simple, clean retrofit solution that minimizes additional door prep or cosmetic concerns.
- Through-bolt mounting ensures tamper resistance and long-term structural integrity.
- Choose the escutcheon that matches your cylinder requirement and pair with one of the TownSteel Rejuvenator mortises for seamless integration.

Flexible Format & Cylinder Options

- Comes standard with a 6-pin Schlage® "C" keyway brass cylinder; includes 2 keys.
- Also available in Small and Large Format Interchangeable Core (SFIC/LFIC) configurations from major keyway systems including Schlage and Corbin®.
- High security cylinder options available, including TownSteel's proprietary "L" keyway.
- Suitable for standard 1-3/4" door thickness; custom sizing available upon request.

Code-Compliant & Certified

- ANSI/BHMA A156.13 Grade 1 Certified, UL 10(C) 3-Hour Fire Rated, ADA Compliant and meets Buy American Act (BAA) Requirements.

Note:

The MRXA-R is functionally identical to TownSteel's MRX-A mortise lock. The difference is the addition of a stainless steel underplate with the MRXA-R, which allows for easier retrofitting by covering existing door prep holes.
