

e-Kestros 2000

ELECTRONIC EXIT DEVICE TRIM

An effortless access upgrade built for multi-housing and beyond.

The e-Kestros 2000 is an electronic exit trim designed to bring secure, keypad-controlled access to new or existing exit devices. With a durable 12-key metal button keypad, support for up to 100 unique pin codes, and a sleek escutcheon trim, the e-Kestros 2000 offers flexible control without sacrificing style. Built for easy integration and reliable performance, it's an ideal solution for multi-housing, commercial, and exit applications.

Effortless Access Control, Built for Real-World Demands

Features & Benefits

Effortless and Standalone Keypad Access

- The e-Kestros 2000 features a durable 12-button metal keypad with a 100-user pin code capacity, ideal for multi-housing, commercial, school, or other institutional settings that need standalone access control without complex wiring or system integration.
- Designed for convenience and security, the metal keypad allows fast access for authorized users and eliminates the need for physical keys.
- The e-Kestros 2000 operates independently of a centralized system, ideal for facilities that want to upgrade to electronic access control without a full infrastructure overhaul.

Streamlined Retrofitting

- Available with multiple cylinder options and programmable functions to meet different application needs across commercial, healthcare, and educational spaces. Refer to the e-Kestros 2000 cut sheet on the TownSteel website for more details.
- Compatible with a wide range of exit device formats, including rim, mortise, CVR, and SVR, to support diverse building requirements.

Security That Matches Your Design Vision

- Escutcheon-style trim is designed for clean aesthetics and simple retrofitting.
- Available with or without the cylinder and in Sentinel or Quest lever styles (additional lever styles available upon request).
- Offered in Flat Black (622) and Satin Chrome (626) finishes, with special finishes available by request for project-specific customization.
- For additional functionalities required for your specific project, please visit www.townsteel.com or contact us at sales@townsteel.com.

Code-Compliant & Certified

- ANSI/BHMA A156.3 Grade 1 Certified, UL 10(C) 3-hour fire rated, Buy American Act, and ADA compliant, meeting the highest standards for safety and accessibility.
