

e-Kontos 2000

ELECTRONIC STANDALONE MORTISE LOCK

Built to simplify access across every type of door.

The e-Kontos 2000 is a standalone electronic mortise lock designed to deliver reliable, keypad-based access control with modern efficiency. Built for high-traffic environments like multi-family housing, healthcare, and commercial spaces, it supports up to 100 user PIN codes and features a durable, all-metal keypad in a sleek escutcheon trim. With its retrofit-ready compatibility, the e-Kontos 2000 installs seamlessly into existing door preps, including those from other major brands, allowing fast upgrades without replacing entire door assemblies or compromising fire and security code compliance. It's a smarter, simpler path to secure access. No integrations or complex infrastructure required.

Smarter Access for Every Opening

Features & Benefits

Reliable Standalone Access Control Built for Real-World Demands

- The e-Kontos 2000 is a programmable standalone mortise lock designed for high-traffic environments like rental properties, healthcare facilities, and office spaces.
- Supports up to 100 unique user PIN codes, ideal for managing frequent access changes without complex systems or software.
- Features a 12-key all-metal mechanical keypad with a sleek escutcheon design, engineered with weather-resistant components providing durability, reliable performance in demanding environments, enhanced security, and a clean, modern aesthetic.
- Optional passage mode allows flexible access when needed, without compromising control or safety.
- Powered by four AA batteries with a lab-tested 2-year battery life. Non-keyed trim models include an emergency USB-C input for backup power access.
- Retrofit-ready design is compatible with TownSteel's Rejuvenator mortises and standard door preps, allowing fast, clean upgrades without replacing entire assemblies.

Designed to Fit Your Project

- Available in key override or keyless options with Sentinel or Quest lever styles.
- Choose from standard Flat Black (622) or Satin Chrome (626) finishes.
- Additional levers and custom finishes available by request to meet any design requirement.
- For additional functionalities required for your specific project, please visit www.townsteel.com or contact us at sales@townsteel.com.

Code-Compliant & Certified

- ANSI/BHMA A156.13 Grade 1 Certified, UL 10(C) 3-hour fire rated, Buy American Act, and ADA compliant, meeting the highest standards for safety and accessibility.
